PROGRAM INFORMATION

What is METAS?

The METAS (Mentoring, Educating, and Training for Academic Success) Program is designed to assist first-year and transfer students with their college transition by pairing them with a peer mentor who will provide guidance and support. Benefits to participation include earning coursework credit, learning about resources and opportunities at UConn, attending educational, cultural, and social events sponsored by the Puerto Rican/Latin American Cultural Center (PRLACC) as well as other departments throughout campus and meeting other students who are going through the similar experience.

The program’s goals are: to enhance student retention; to create a strong sense of community among Latino students; to provide leadership opportunities; and to provide a support system for Latino freshman and transfer students as they transition into college life.

How does the program work?

During the summer, future UConn freshmen and transfer students are recruited into the program and matched with peer mentors according to common interests and characteristics such as major, extracurricular activities, hometown, hobbies and/or gender. Participants will be able to take part in a number of activities during the year, which include the METAS Orientation, social and cultural events, educational workshops, fieldtrips, etc. Mentors and mentees can work together to determine expectations and how to best structure their mentoring relationship.

What are my commitments?

Students in the program are encouraged to enroll in a 1-credit course (INTD 1820—Connectate with METAS). This course will connect you to university resources and provide an opportunity for students to learn about and discuss issues pertinent to Latinos. Each week, students will learn about a range of topics such as cultural and campus resources, study skills, time management and problem solving. You will also learn how to positively contribute to the Latino community at UConn. The course will meet on Thursdays at 5:00 p.m. Other commitments include:

- Committing to be involved during the year and participate in the program’s activities.
- Requesting guidance about campus resources, coursework, career goals and other educational and social opportunities as needed.
- Attending mandatory workshops (dates TBD).
